

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

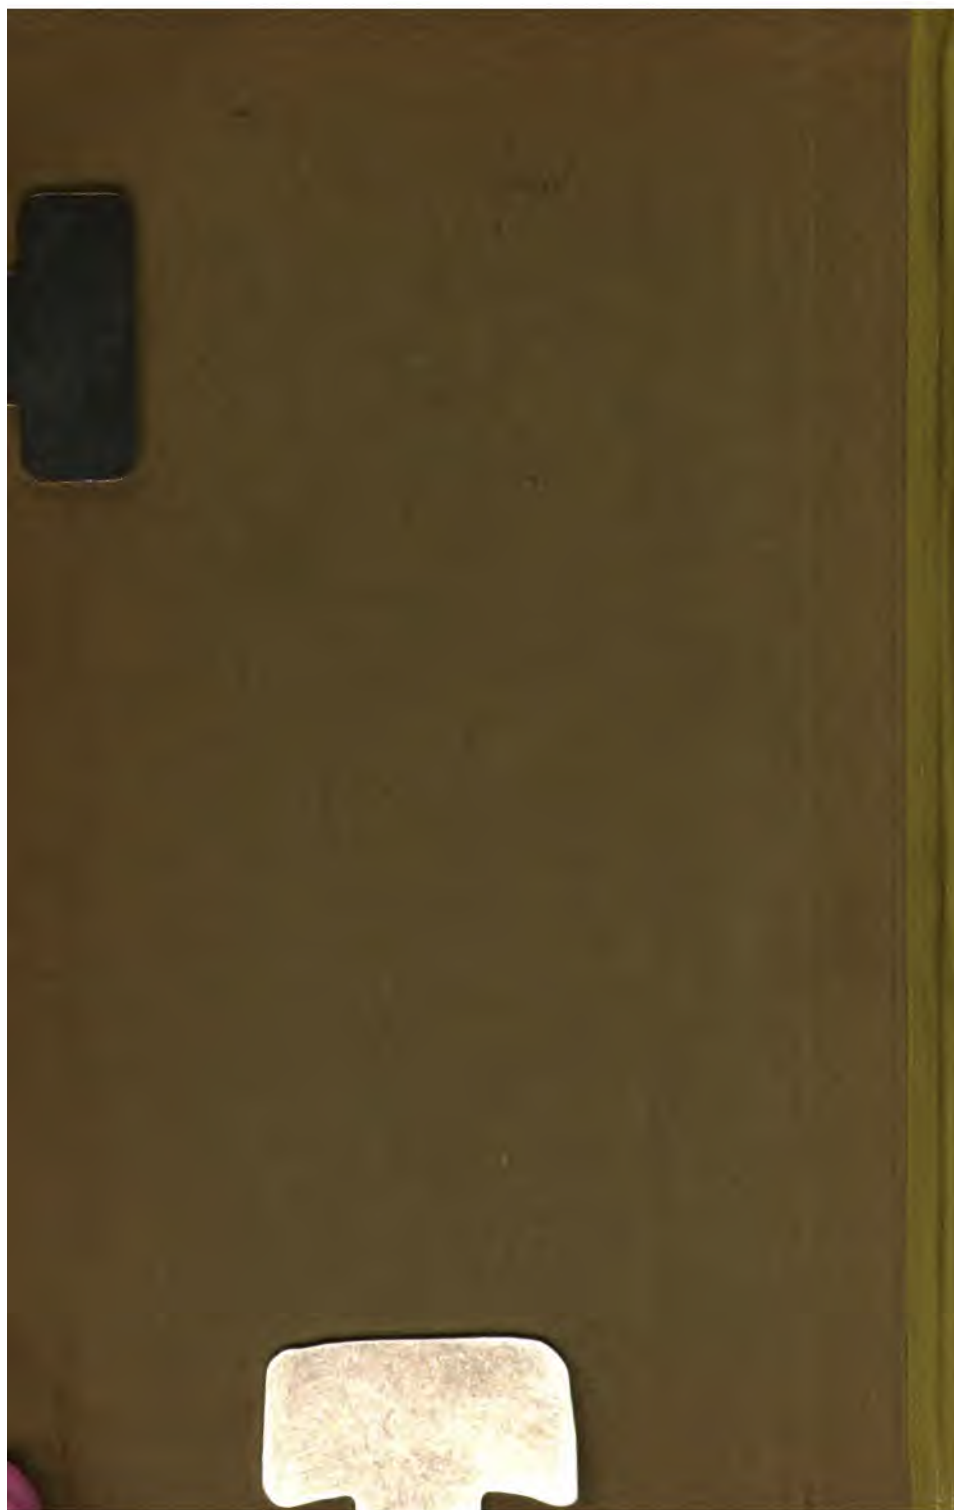

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

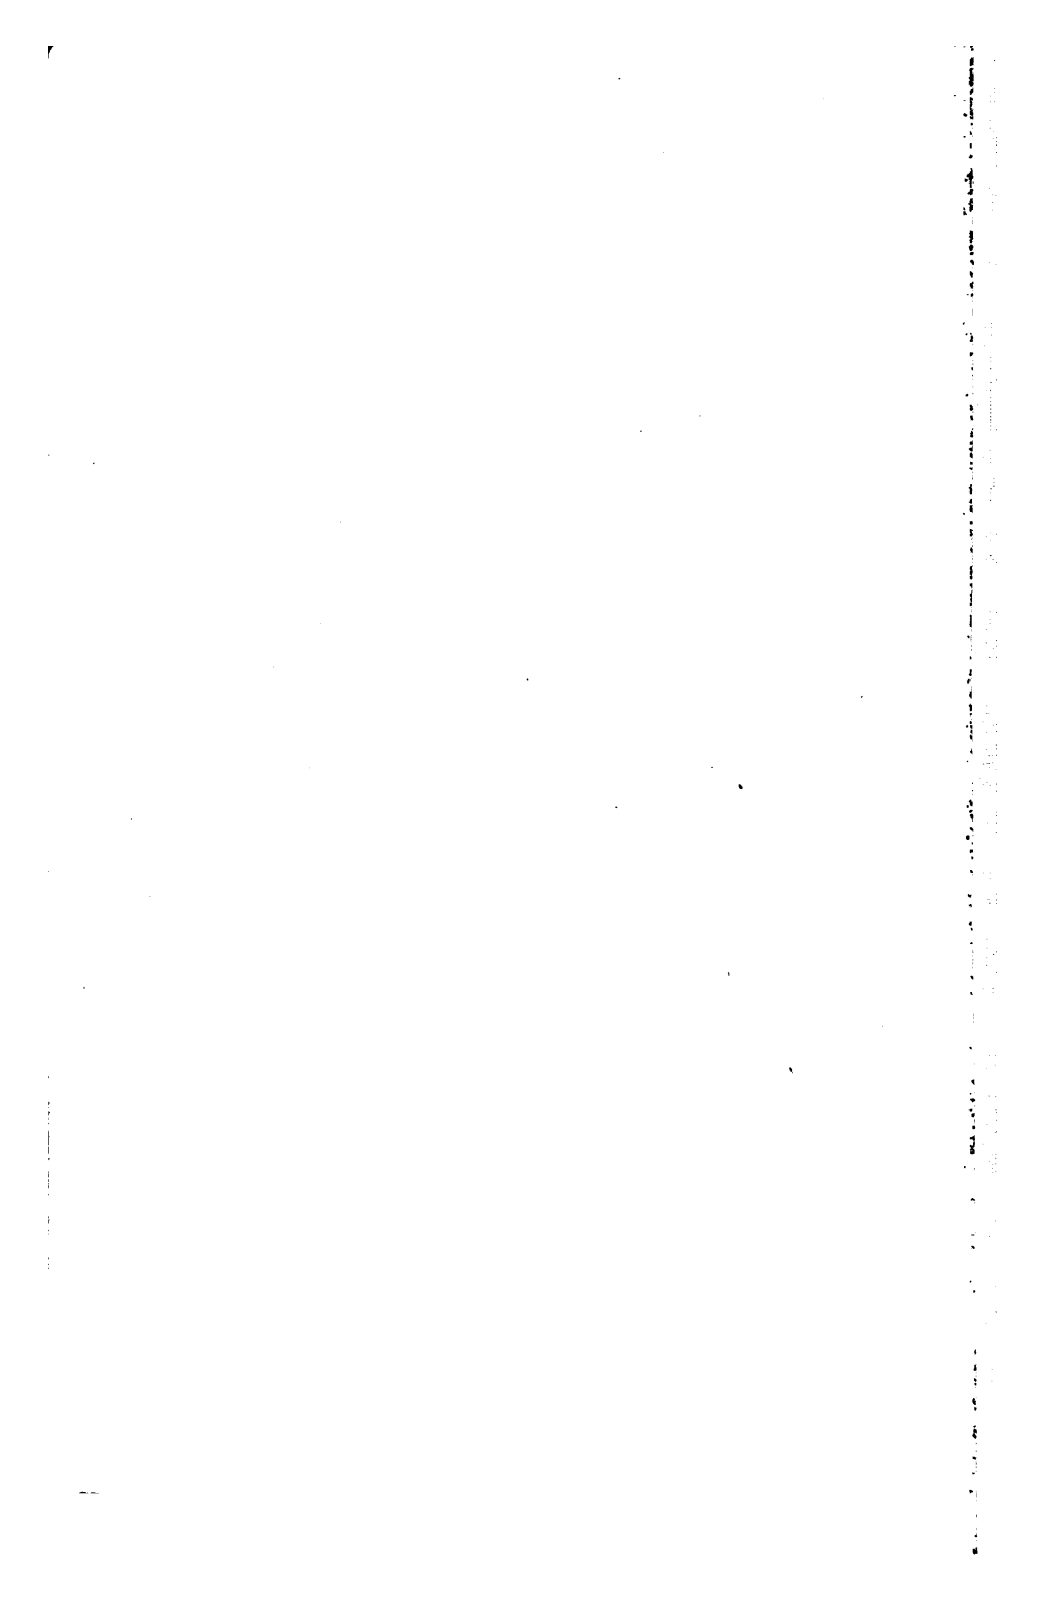

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

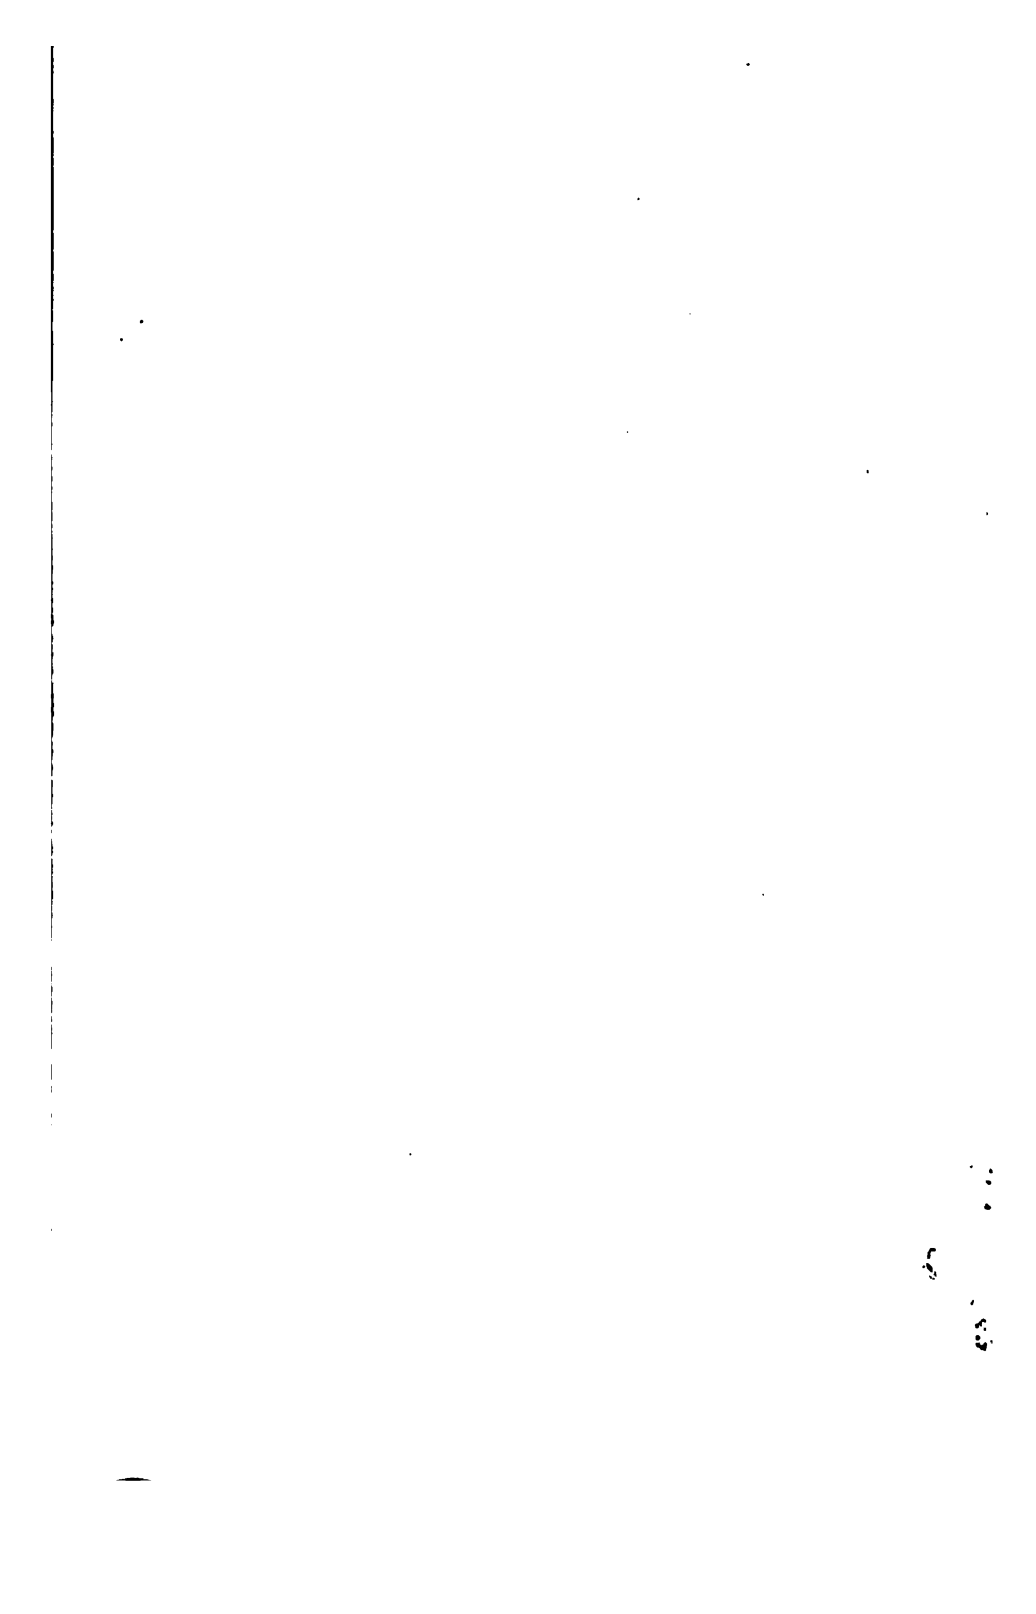

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. THE Nineteenth Volume of the GENERAL STUD BOOK is now published, bringing the produces down to the end of 1900. The colours of the brood mares have been added in this volume, as it was suggested that it would be of interest to breeders. The increased importation of horses and mares bred in U.S.A. and Australia, which, as stated in the last Volume, though accepted in the Stud Books of their own country, cannot be traced back in all cases to the thorough-bred stock exported from England, from which, more or less, they all claim to be descended, induced the Publishers to refer the question of the admission of such animals into the Stud Book to the Stewards of the Jockey Club as the highest authority on all matters connected with the Turf. The Stewards, after kindly consulting most of the principal breeders, came to the conclusion that any animal claiming admission should be able to prove satisfactorily some eight or nine crosses of pure blood, to trace back for at least a century, and to shew such performances of its immediate family on the Turf as to warrant the belief in the purity of its blood. Therefore all the imported horses and mares, which are included in this Volume have been submitted to this test. In the Appendix (p. 1060) will be found the particulars of the case of Newhaven II, whose claim for admission shewed the necessity for some authoritative decision.

The following analysis of the returns for the last four years shews:

*Total number of Mares accounted for - - - - -	5664	5906	5944	5890

* As about 8 mares in 1000 breed twins, these totals should be proportionately reduced.

The Publishers beg to thank the breeders and other correspondents for their kind assistance, and to renew their request that gentlemen, as soon as this Volume comes into their hands, will have the further kindness to examine the accounts of their own mares, and at once give notice of any inaccuracies they may observe, in order that those which are important may be publicly corrected. The Annual Supplements will be continued.

* **COLUMBUS** was by Smuggler (s. of imp. Fisherman), out of Alice Drew, by imp. Athos, and traces back to an imported mare called Spaewife, which, in Vol. I of the Australian Stud Book, on p. 308, is described as said to be by Soothsayer, out of Cutty Sark, by Haphazard. This being impossible, it was once supposed she was by Ben Ledi, out of Spaewife, by Soothsayer. This, however, was found to be incorrect, and in Vol. II, p. 350, she is thought to be Fortune-teller (Scotticized Spaewife), foaled in England in 1820, by Soothsayer, out of Streamlet, by Rubens. This seems probable, as according to the English Stud Book, Vol. III (4th Edition), p. 265, Fortune-teller was sent to New South Wales in 1826.

FIRST WATER (Bay), foaled in 1892, got by Royal Hampton, her dam, Mill Stream, by Wisdom (Mr McCartan's), was covered in 1900 by Massacre.

The **HELIOPHANES MARE** (Chesnut), foaled in 1886, out of Ermyntrude, by Kisber, was brought back from U.S.A. (where she was sent in 1887), in 1900. She is in Mr Lort Phillips' Stud, and was covered in 1900 by Demagogue (s. of Plebeian).

LAKE PLACID (Chesnut), bred in U.S.A. in 1897, and imported in 1898, got by imp. Golden Dawn, her dam, Agnes, by Onondaga (s. of imp. Leamington), out of Skylight, by Jack Malone (s. of imp. Lexington), out of Vesperlight, by Childe Harold (s. of imp. Sovereign), out of Budelight, by imp. Glencoe, out of Gaslight, by imp. Leviathan, out of Pigeon, by Pacolet, out of imp. Miss Shipton, by Waxy, out of Mother Shipton, by Anvil. She is in Mr H. E. Beddington's Stud, but was not covered in 1900.

META II (Brown)—sister to Myakka—bred in U.S.A., in 1895, and imported in 1896, got by Sensation, her dam, Magnetic, by imp. Ill Used. She is in Mr Schwabe's Stud, but was not covered in 1900.

MYAKKA (Chesnut), bred in U.S.A., in 1896, and imported in 1897, got by Sensation (son of imp. Leamington), her dam, Magnetic, by imp. Ill Used, out of Magnetism, by Kingfisher (son of Lexington), out of Attraction, by imp. Balrownie, out of imp. Maud, by Stockwell. She is in Mr Daniel Cooper's Stud, but was not covered in 1900.

SETA (Brown), bred in U.S.A., in 1898, and imported in 1899, got by imp. The Sailor Prince, her dam, Sprinter, by imp. Mortemer, out of Spinaway, by imp. Leamington, out of Megara, by imp. Eclipse, out of Ulrica, by Lexington, out of imp. Emilia, by Young Emilius. She is in Mr Daniel Cooper's Stud, but was not covered in 1900.

WINDGALL MARE (Bay),

Bred by Lord W. BERESFORD, in 1896, her dam, Catarina, by Poulet, out of Queen of Cyprus, by King Tom.

1900	b. c. by Lord Henry (s. of Poulet) -	} Mr W. S. Hunt
1901	by ditto -	

* * The return published for Pentecost, by Peter, out of Lady Kars, in Vol. XVIII, p. 775, and in Supplement for 1897, should be omitted. Pentecost was sold to go to France in 1893, and a certificate given. A question as to the identity of the mare sent to France, has, so far, not been satisfactorily proved.

NEWHAVEN II.—The question of the admission of this horse into the Stud Book was referred to the Stewards of the Jockey Club early in 1901, and after having taken the opinion of many of the principal breeders, they recommended that though there was a great probability of his being thorough-bred, his pedigree, even as far as it went, rested on such doubtful authority, that he should *not* be accepted.

Newhaven II's pedigree was stated to be as follows:—Foaled in 1893, got by Newminster (son of The Marquis), out of Oceana (foaled 1884), got by imp. St Albans, her dam, Idalia (foaled 1874), got by imp. Tim Whiffler, out of Musidora (foaled 1859), by imp. The Premier, out of *Dinah*, by imp. *Gratis*.

The Australian Stud Book, Vol. VI, p. 539 (in errata), states—

Dinah, by *Gratis*, was a Bay Mare, branded "W" on the near shoulder, she was brought from N.S.W. by Mr Halliard in 1848 to the Western district of Victoria, with a colt-foal *Buckley*, by Commissioner (son of *Gratis*, dam by Camerton), at foot. A few years afterwards Mr Wilson bought her of Mr Halliard, and got a pedigree with her, which he subsequently mislaid, but he *remembers* her dam was *said to be* by Rous' Emigrant, out of a Camerton mare.

- 2 Sylva was called Silver in U.S.A.
 15 Vixen was also known as Cook's Vixen.
 16 Windham.—There were probably two horses of the Duke of Somerset's of this name, as he matched one in 1713 and one in 1724 and later. The date of foaling, 1719, can only refer to the latter.
 17 & 381 According to the Portland MS, Jigg was out of Leedes' dam.
 33 Bay Bolton mare (Little John's dam). So far as Little John and Sweepstakes are concerned, this mare was out of *sister* to Old Coquette. The others may have been dam by Bay Bolton, out of Old Coquette.
 45 Bushy Molly was by the Hampton Court Litton, not Ditton, Arabian.
 62 Coquette's dam was by Curwen, *not* Curwell, &c.
 69 Crazy (Ancaster) was foaled in 1748.
